

Beauty is not created by adding one more detail,
it is conceived by removing the last.

kreon #worldofkreon

We want to welcome people into the world of kreon, make them a part of it. We want to create a harmony between comfort and functionality. That is what our new collections consist of. Functional yet comfortable solutions. We step away from classic designs. And we bring back true, unique optics and lenses. Characterized by comfort, connectivity, technology and architecture. Driven by innovation, we try to surprise you and do the unpredictable. To meet everyone's personal needs. So everyone can experience the world of kreon.

cadre

dolma

kreon products, in their simplest forms do not result in austere minimalism, but in architectural objects that communicate and create a dialogue with space regardless of style.

inti

up

Luminance and illumination are our primary goals. The design of our collection represents a way of thinking that reduces each product to its essential components without compromise.

kreon epitomises the visual language in present-day architecture, an architecture based on right angles and pure lines. It is to this same sober architecture that the appliances owe their universal and timeless character.
