
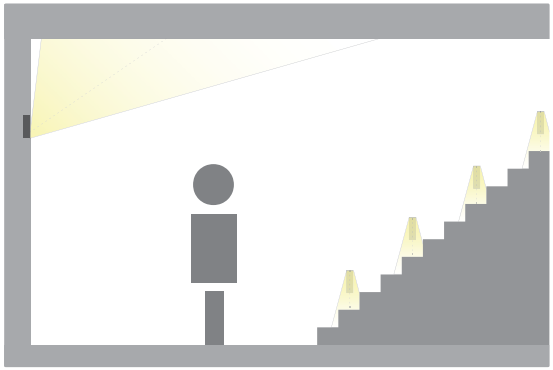
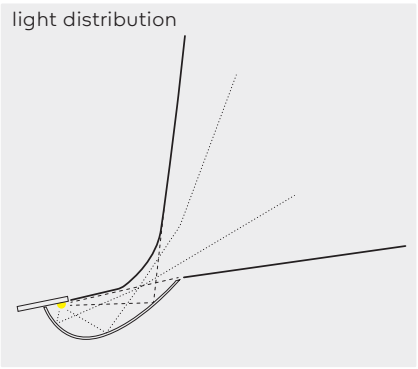
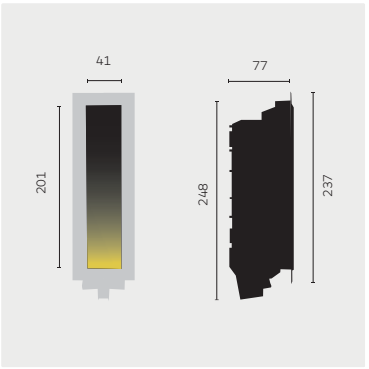
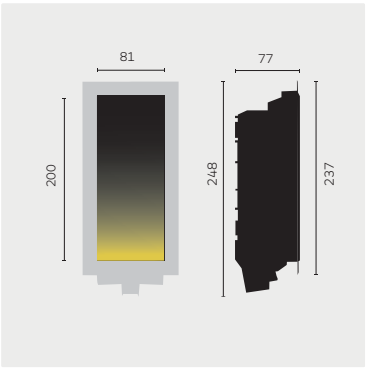
kreon side in-line 40 & 80

kreon side reproduces many aspects of the classical recessed side light. The faceted reflectors by Bartenbach Lichtlabor which are incorporated into the light ensure a uniform asymmetrical beam, making the kreon side in-line an efficient, compact floor or ceiling washer. A soft yet striking light beam and the steep bevel of the finishing louvre draws attention to the straight vertical back surface which can be finished in various materials according to the designer's preference. kreon side in-line, available in widths of 40 and 80 cm can be merged perfectly into the architecture and combined with other kreon luminaires.








- **type**: recessed trimless sidelight
- **features**: high efficient floor or ceiling wash light - excellent uniform surface illumination
- **finishing**: back plate: bronze, red copper, white or black – louvre: white or black
- **fixture lumen**: up to 230lm (side in-line 40) - up to 450lm (side in-line 80)
- **optical**: multi facet optics for asymmetric light distribution and homogeneous colour mixing
- **installation**: easy to install kit for seamless finish in various installation situations
