

Holon 45 directional, Holon 45 & Holon 85

Holon 45 directional, is a series of directional spotlights for indoor applications. With its off-set positioned hinge at well above 50% of the luminaire size and despite the simple design, Holon 45 directional captures a minimalist but highly decorative atmosphere. The hinge is permanently tensioned, allowing the luminaire to remain fixed at any angle. Only when the luminaire is used as a simple tube for down lighting, the hinge can be locked. Holon 45 directional can either be recessed or surface mounted.

Holon 45 and Holon 85 are designed for rooms that embrace its language of form but do not require an adjustable luminaire head. Holon 45 directional, Holon 45 and Holon 85 are designed for use in residential applications and engineered only for LED. Warm color Cree LED's with high CRI ratings allow for aesthetically, pleasant illumination.
